1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-11, 15 and 17-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Heidingsfeld in view of Ulrich, Morikawa and Woods.

See Paper No. 8, paragraphs 3-7.

3. Applicant's arguments filed 10-8-02 have been fully considered but they are not persuasive. The applicants argue that the combination of references doesn't disclose the invention. Heidingsfeld shows all the same (a) – (d) components in overlapping amounts. It's assumed that the melt temperature would be the same if the product is the same, and preparation in a tumbling mixer wouldn't make the product different from one made in an extruder.

4. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
